IOWA BANK ROBBED

Cashier and a Citizen Shot by the Bandits.

ONLY A SMALL SUM STOLEN.

A Posse of Citizens Pursue the Robbers, One of Whom Is Captured and the Other One Shot and Instantly Killed—The Captured Man Likely to Be Lynched—Money All Recovered.

ADEL, Ia., March 7.—A desperate and partly successful attempt was made to rob the Adel State bank yesterday. A few minutes before 9 o'clock two strangers drove into town and tied their team near the public square. They got out and without attracting any particular attention stepped into the bank. The cashier, S. M. Leach, had just taken from the vault the currency for the day's business. C. D. Bailey, a leading merchant, was writing at a desk in the lobby. They were the only occupants of the bank.

One of the strangers stepped up to the cashier's window and said he wanted to deposit some money. At the same instant the second robber, who was behind, levelled a shotgun at Leach and fired, the charge taking effect in his shoulder. He then ordered the cashier to hand over the money. The latter handed over a small sack of silver and then, though badly wounded, seized a drawer containing about $3,000 in gold and currency, and staggering to the vault, he pitched the money in and shut and locked the door. Weak from loss of blood, he then fell to the floor.

One of the robbers then sprang over the counter and began shoveling all the money in sight into a sack, and the one with the gun turned to Mr. Bailey, who was still standing at the desk, and fired a shot at him, wounding him in the neck. He fell to the floor and the robber shot at his prostrate form, but missed him. By this time a crowd had gathered outside and the two robbers, one carrying the money and the other wielding the gun, made a rush for their buggy. Fully 50 shots were fired at them, but none apparently took effect.

They got into their buggy, and keeping the crowd at bay, drove rapidly away. Several men sprang upon horses and followed, and a running fight of several miles ensued. About four miles south of town the buggy driven by the robbers struck a tree and broke a wheel. The robbers, still closely pursued, abandoned their rig, and one hid behind a bank, where he was soon captured, and the other, with the gun, ran into a barn near by. The barn was surrounded, but the bandit held the crowd at bay. He was called upon to surrender, but resolutely refused, and said he would never be taken alive.

After a parley the crowd partially untied the captured robber and compelled him to set fire to the barn. The advancing flames finally forced him to come out, but he still refused to surrender and the crowd of citizens fired a volley at him. He fell dead, pierced by three bullets. Two took effect in the head and one in the side and either would have been fatal.

It was with the utmost difficulty that the angry crowd was prevented from wreaking vengeance on the robber that was alive, but Sheriff Payne hustled him into a buggy and drove rapidly back to town. A crowd of several hundred had gathered at the jail when the sheriff reached there with his prisoner. There were loud cries of "Shoot him," "hang him," but the officer managed to elude the mob and land his trembling prisoner safely behind the bars.

The captured man, or rather boy, for he is only 19 years old, has made a complete confession. He says his name is Charles W. Crawford, and his home near Patterson, in Madison county. The dead robber is O. P. Wilkins and was released only a few weeks ago from the Minnesota penitentiary, at Stillwater, where he served three years for robbery.

Crawford says their only weapon was a repeating Winchester shotgun, carried by Wilkins, and the testimony of witnesses bears out this statement. He claims to have been coerced into assisting Wilkins and says they went to Indianola last Monday morning for the purpose of robbing the bank there, but he refused at the last moment after they had reached the town and the job was abandoned.

They stayed Tuesday night with a farmer living a few miles southeast of here and drove to town yesterday morning. Their team was stolen from the prisoner's uncle, W. W. Crawford, of Madison county. They secured only about $600 from the bank, and the money was all found where the buggy broke down.

It is not believed that either Bailey or Leach is fatally hurt. The latter received a full charge of shot in the shoulder, making a bad but not dangerous wound. Bailey was shot in the neck, the flesh and skin being torn away almost to the windpipe. He will recover unless inflammation sets in.

Several citizens were hurt by scattering shots fired by the robbers. Postmaster B. S. Barr stepped out of the postoffice just as the robbers passed. The latter ordered him in, but before he could comply fired at him, one shot striking his forearm and another piercing his hat and grazing his forehead. J. M. Byers, J. M. Simroke and a boy named Cecil Decker were also slightly injured.

The daring robbery has caused intense excitement. The town is full of armed men, most of whom had turned out from neighboring towns on the first report of the robbery to aid in the capture of the robbers. There is still considerable talk of lynching Crawford, but the sheriff and leading citizens are trying to pacify the crowd and will probably succeed, though if anybody made a start there would be plenty of followers to make the bandit stretch hemp.

CHARGED WITH EMBEZZLEMENT.

Accountant and Interpreter of the Argentine Legation Arrested.

WASHINGTON, March 7.—Manuel Almagro, accountant and interpreter to the Argentine legation in this city, was, yesterday, arrested at the office of the legation, and locked up at the request of Minister Zeballos on a charge of embezzling $2,600 of the funds of the legation.

Almagro confesses his guilt. He says he lost a large sum belonging to the legation on the street last November. Being afraid to confess it, he tried to make it up by gambling at Jackson City with the legation money, all of which passed through his hands. By January he had lost in all $2,600. He then confessed to Minister Zeballos, who gave him time to raise and replace the money. He visited Cuba, where his father is said to be a prominent man, for this purpose, but failed to secure the money and the minister, finally losing patience, caused his arrest.

Almagro was born in Spain and went to Cuba while very young. He is 40 years old and has been in the United States for 25 years and with the Argentine legation for 15 months. The legal question involved in his arrest was discussed before action was taken. District Attorney Bimey, after consulting at the department of justice, held that Almagro, being an employe, not a member of the legation, could be proceeded against in the usual way.

LUMBER DEALERS' COMPLAINT.

A Chicago Man Charged With Fraudulently Using the Mails.

CHICAGO, March 7.—M. J. Decker, head of the firm of M. J. Decker & Company, dealers in and collectors for lumber, was arrested last night on a charge of using the United States mails for fraudulent purposes. He was arrested by Postoffice Inspector Mercer and Deputy United States Marshal Taylor on warrants sworn out by H. A. Smith, a lumber dealer and manufacturer of Benton, O.

It is alleged by Smith that he sent to Decker on contract a quantity of white oak lumber, and that the latter refused to pay for it, claiming that it was not up to contract quality, while Smith says Decker was endeavoring to steal the lumber by selling it to third parties. Similar complaints have been made before against Decker by Ohio lumber firms, and the postal authorities advised his arrest.

THREE FIREMEN INJURED.

Building Completely Wrecked by an Explosion of Gas.

KANSAS CITY, March 7.—An explosion of gas, said to be deliberately planned by an incendiary, yesterday afternoon, wrecked the 2-story brick dwelling of Lewis H. Day, in Lydia avenue, and caused the injury of three firemen. The explosion was caused by a gaspipe leading from the basement being cut and letting the gas flow through the house, which had apparently been set on fire.

Soon after the firemen arrived the whole side of the house was blown out and the remainder of the structure shattered. John Lynch, Clarence McElroy and William McCormick were caught in the debris and all severely cut and bruised, but none will die. The family were absent at the time.

Not Surprised.

LONDON, March 7.—In a leader The Daily News says the statement that the Hawaiian revolutionists will not be executed does not cause surprise. When the Americans spared Jefferson Davis and his associates in one of the greatest rebellions that the world has ever seen, they created a precedent which must be binding on their conscience and their humanity for ever. They have that precedent almost exclusively to themselves. National pride should forbid them to depart therefrom and reduce themselves to the level of effete Europe.

Idaho's Senatorial Contest.

BOISE CITY, March 7.—In the senatorial vote yesterday one of the Sweet men left him and voted for Shoup, the result being: Shoup, 21; Sweet, 18; Crook, 14. There is much talk of a dark horse, but no one has any definite idea who may be brought out. The effort of the Sweet men apparently is to defeat Shoup at any cost. There are only two more days of balloting, and if the Sweet men and Populists continue to vote together for an adjournment, there can be only two ballots, and perhaps no election.

Steamer Foundered.

PORT TOWNSEND, Wash., March 7.—The steamer Evangel, plying between Victoria and Puget sound ports, while lying alongside the wharf at Port Angeles last night, foundered. No one was injured. The accident was caused by the engineer leaving the sea cook open after the vessel had been tied up for the night. The passengers, six in number and crew, were all asleep and had only about two minutes after the alarm was given that the steamer was sinking. Most of the passengers landed without clothing.

Mexican Railway Calamity.

CITY OF MEXICO, March 7.—Excitement over the Interoceanic railway calamity continues here. Leading lawyers are offering their services free to claimants against the company. The court is investigating. Subscriptions are being raised for the victims. The city council voted $2,000 for victims of the late disaster.

THE STRIKE ORDERED

Nearly Seventeen Thousand Miners May Quit Work.

ALL IN THE PITTSBURG DISTRICT.

Operators Fail to Do Anything to Stop It. Their Proposition For a Conference Was Voted Down After a Vigorous Discussion — The Results Now Anxiously Awaited.

PITTSBURG, March 7.—The strike of the 17,000 or more miners in the Pittsburg railroad coal district is now an established fact.

At the beginning of yesterday's session of the miners' convention, the committee that conferred with the operators the previous night presented its report, the chief feature of which was a proposition made by the operators that a joint convention of miners and operators be held in Pittsburg next Saturday.

This was the only proposition, so the miners say, that was made by the operators, there being no truth in the report that the operators had offered the 60 cents for mining coal.

The report was vigorously discussed, and when the vote was taken the proposition to hold a joint convention was voted down.

Every delegate was explicitly instructed to carry out the strike order issued by the convention late Monday night.

The convention, at 12:30 o'clock, adjourned without date.

What action the operators will take is not known.

The order to strike seems to meet the approbation of the miners in the district and the shutdown will likely be general. In the fourth pool all mines are idle except two; the Charleroi Coal company's miners are all out and the Panhandle men at McDonald and Midway will be out in the morning.

HUMAN SKULL FOUND.

Startling Discovery Made in a New York Cellar.

NEW YORK, March 7.—The skull of a human being was found in the cellar of 459 West Forty-sixth street, at 9 o'clock last night. The skull is probably that of Susie Martin, the trunk of whose murdered body was found a year ago in the basement of 517 West Thirty-ninth street. The skull is an unusually small one, and has evidently been boiled for some time.

It was found wrapped in some old linen which may have been used on an ironing board and portions of a girl's plaid jacket, which answers the description of that worn by Susie Martin when she disappeared. The bundle was found behind the door near the end of the coal chute leading from the street, and the janitor who found it, said it may have lain there for over a year. The skull and clothing are in the West Forty-seventh Street station.

INHUMAN ROBBERS.

Two Men Beaten Into Insensibility and a Woman Horribly Tortured.

GREENVILLE, Pa., March 7.—Reports of a daring robbery, which occurred near Sheakleyville, have just been received. Three masked men entered the residence of Mrs. Ross, mother of Stephen Ross, a well known music dealer of this place, and after beating two male occupants of the house into insensibility, they attempted by severe torture to force Mrs. Ross to disclose the hiding place of her gold.

They blistered her feet and forced her to disclose the hiding place of some $50 and leaving their victims bound and gagged, they drove away in a buggy, headed toward Greenville. The rig was traced to a point just at the city limits, where the broken carriage was left. Here all trace of the trio was lost.

EXCURSION STEAMER ASHORE.

Americans Delayed by an Accident at Port Said, Egypt.

PORT SAID, March 7.—The Red Star line steamship Friesland, Captain Nickols, chartered by Frank C. Clark of New York and Alfred A. Guthrie of Albany, to take a large party of American excursionists to the Mediterranean sea, and which left New York Feb. 6, is ashore in a bad position at this port.

The Friesland grounded while leaving Port Said and is hard and fast at a spot inside the breakwater. The cause of the accident was that her steering gear became disabled. The steamer is being unloaded as rapidly as possible. She is being assisted by tugs.

A Color Fight.

BEREA, Ky., March 7.—As the students of Berea college were filing out of the recitation room C. C. Coyle, a white student, and Speed Goodloe, a negro classmate, engaged in a fight, in which Coyle was stabbed in the abdomen by the negro. The negro claims Coyle struck him over the head first with a book. The wound, though painful, is not thought fatal. Goodloe was arrested and placed under bond.

Two Children Horribly Burned.

BROOKLYN, March 7.—A fire in the apartments of John Lewis last night resulted in the death of his 4-year-old daughter, Gertie, and the serious burning of his 2-year-old son, Daniel. Both children had been left alone when the clothing of the little girl ignited while she was playing at the kitchen stove. The child was so severely burned before her screams of agony brought other tenants of the house to her assistance that she died within a few minutes. The other child, though badly burned about the body and limbs, will probably recover.

THE PRESIDENT'S OUTING.

The Lighthouse Tender Violet Reaches Portsmouth's Navy Yard.

NORFOLK, March 7.—The United States lighthouse tender Violet, with the presidential party aboard, which left Washington on Tuesday morning, arrived at Norfolk yesterday morning about 4:30 o'clock and proceeded directly to Portsmouth, where a stop was made at the United States buoy yard, opposite the navy yard. Very little interest was manifested in the arrival of the party, and when they reached the yard but two persons were on the dock.

In answer to inquiries, Commander Lambertson said that the president was feeling very well, and had greatly enjoyed the pleasant trip down the bay and through Hampton Roads. The commander stated further that the Violet was making her regular inspection tour of the lighthouses in this district, and added that the president had embraced the opportunity to spend a few days away from the turmoil of official life to enjoy the scenery and the shooting to be had in North Carolina's famous sounds. Commander Lambertson said the president would return in eight or 10 days.

TWO COACHES DITCHED.

Joseph M. Wright of Cincinnati Among the Injured.

SPENCER, Ind., March 7.—Two coaches attached to the morning train on the Indianapolis and Vincennes railway were ditched between Marco and Sanborn yesterday. A broken rail was the cause of the wreck. Both coaches were badly broken, and the rear coach was afterward consumed by fire.

There were no ladies on the train. Among the passengers was I. S. Halton of Eminence, Wis., who suffered a broken thigh. He was taken to Worthington for medical attention. The other injured include S. T. Brown of Jonesville, Wis., hurt in the back; Ed Elliott of Terre Haute, bruised about body; Joseph M. Wright of Cincinnati, back and arm injured, and Edward Dryman of Vincennes, Ind., injured in the head and back. All the passengers were brought through in a baggage-car. Mr. Halton is the only injured passenger who will be disabled.

WILLIAM SIMON SUICIDES.

An Unhappy Man Ends His Life in Central Park, New York.

NEW YORK, March 7.—A man who, from papers found on his body, is supposed to have been William Simon, a guest of the Vanderbilt hotel, committed suicide in front of the museum of arts building in Central park last night by shooting himself twice in the head.

In the inside pocket of his coat was a postal card addressed to Dr. A. Rixa and on the back of the card was written the following: "I hope when this reaches you I will at last be at rest. I have tried my utmost to overcome my unhappy life, but it is getting worse every day. I can not stand it any longer. Please let my wife know of this and oblige your true friend, William Simon, room 210, Vanderbilt hotel."

RETALIATE ON AMERICANS.

Free Zone Resolution Not Liked by Mexican Authorities.

EL PASO, Tex., March 7.—The Mexican authorities at Jaurez, in the state of Chihuahua, have taken steps to retaliate on Americans for securing the passage of the free zone resolution by the late congress.

At a meeting last night the customs collector announced that he would, in the interest of that town, refuse the courtesies he had extended to American residents at Jaurez. These have been allowed to import from El Paso free of duty family necessities, including provisions. This will be permitted no longer. Efforts are also being made to induce the main government to adopt a retaliating policy.

Will Contest Fred Douglass' Will.

ROCHESTER, March 7.—It is reported here that the heirs of the late Frederick Douglass will contest the probate of the will of the deceased when it is offered at Washington. It is said the feeling between the children of the first wife and the widow has not always been the most friendly, and that during the latter days of Mr. Douglass he deeded much of his property to Mrs. Douglass without the knowledge of his children, who are considerably exercised upon seeing their father's property slipping away from them.

Attempt to Burn a Church.

BOSTON, March 7.—An attempt to burn St. Peter's Roman Catholic church, which is situated in the Dorchester district in this city, while 1,200 were attending evening service, was made about 8 o'clock last night. The blaze was discovered in time to prevent serious damage to the building, and although a stampede of the congregation occurred as soon as it was known a fire threatened, no one was seriously injured.

The Chinese defenders of the native city occupied the houses and streets, but were gradually driven out, all the while stubbornly resisting. At 11 o'clock Monday night all the Chinese were driven out of the city after having lost 1,880 killed or wounded. Six hundred were made prisoners. Eighteen guns and a quantity of the munitions of war fell into the hands of the Japanese. The losses of the Japanese were only 200 killed or wounded.

The deceased was the widow of Curtis Watts, a well known farmer, who died two years ago, and the mother of four children, who survive her. Mrs. Watts was the daughter of the late Silas Wright.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & McCARTHY,

Proprietors.

THURSDAY, MARCH 7, 1895.

Generally fair and warmer.

THE last bill signed by the President was one prohibiting the bringing of lottery tickets into the United States. The late Congress did some commendable work, after all.

FIFTEEN cranks on the silver question have issued a manifesto proclaiming a new political party devoted to free coinage of silver and gold at 16 to 1, and suggesting Joseph C. Sibley, of Pennsylvania, as a proper man for President. The mine-owners and their allies ought to be able to make a better showing than this.

A MAYSVILLE firm advertised a table linen sale last week, in the Maysville papers. The proceeds of the sale amounted to $500. Advertising pays. —Fleming Gazette.

Instead of being advertised in the Maysville papers, this sale was advertised in the Maysville paper,—the BULLETIN. And, although the advertisement was inserted during one of the dullest seasons of the year, it made trade lively for the firm, and yielded them a handsome return on their investment. Now is a good time to plant your "ad" for the spring trade.

AT Louisville the high-priced record for the year was broken during the sale in the Central House, by a crop of five hogsheads, owned by the firm of Perry, Bronough & Kane, of Paris, Ky., which was offered for sale. It was fine new burely, and the buyers all tried to secure it, with following results: $21.50, $18.25, $15, $9.40 and $4.45. Then a crop of three hogsheads belonging to W. W. Gibson, of Cynthiana, Ky., was sold for the following prices: $18, $16.75 and $15.75; one hogshead belonging to Mitchell & Rice, of Paris, Ky., went for $17. This is one of the best sales of new tobacco made on the breaks in a long time.

There's a good pointer in these figures for farmers, and that is, to aim at quality and not quantity in growing tobacco. Better, far better, to raise a small crop that will command top prices instead of worrying with a big crop of trashy stuff that won't pay hardly for the work put on it.

SAM STAIRS, of the Dover News, gives the following advice to those who wish to witness the eclipse: "There will be a total eclipse of the moon on the night of March 10th, from 8 to 12. Take your girl, if the night be unclouded, and watch the shadows creep over her beautiful face (the moon's) while she (the girl) nestles closer as the shadows grow darker and her face (the moon's) is hid behind the shadow of the earth, while she (the girl) slily slips her hand in yours. That will eclipse any eclipse you ever saw eclipsed before or since."

A NOBLE LIFE ENDED.

The Venerable Daniel Spalding Pa ses Away At Louisville—Sketch Of Deceased.

The venerable Daniel Spalding, of Louisville, who had been at the point of death for a week or so, passed away yesterday afternoon at 4 o'clock at his home in that city.

About a year ago, Mr. Spalding tripped and fell down stairs at his home and, although he was able to go about afterwards, he never entirely recovered from the injuries he received in that accident. During his last illness, he suffered greatly from pains in his head, and it is thought these were caused by some injury received in the fall a year ago.

His relatives in this city have received no word as to the arrangements for the funeral, but his remains will no doubt be interred at Louisville, as his wife is buried there.

Deceased was a native of Nova Scotia, where he was born in 1811, his father being Daniel Spalding, a Scotchman. In 1815, the family came to Maysville, and resided in what is still known as the "Spalding property" on West Fourth street. Mr. Spalding made this city his home until 1849, with the exception of a few years spent at Mt. Vernon, Ind. In 1849, he went from here to Louisville where he spent the rest of his life.

Mr. Spalding's father was a tobacco manufacturer, and when the son grew to manhood he also engaged in that business, and carried it on on an extensive scale. Misfortunes, however, overtook him, and three or four different places of business occupied by him were destroyed or badly damaged by fire. He was a man of indomitable energy, however, and never gave up.

On going to Louisville, he engaged in the tobacco business there, under the firm name of Spalding & Co.

He was afterwards appointed Tobacco Inspector, which position he held until 1876, when failing health compelled him to resign. He received the appointment again in 1880, but was able to hold it but a short time. He then accepted the position of buyer for Spalding & Merrick, which position he held until his death. His knowledge of tobacco on the breaks, says the Louisville Post, was not surpassed by anyone, and he probably knew more about the tobacco business than any dealer in the city.

Mr. Spalding leaves eight children and several grandchildren. John Spalding, a son, is buying for Nall & Williams; another, William, represents Spalding & Merrick in the Cincinnati market, while a grandson represents Liggett & Myers in Cincinnati. James, another son, resides in New Jersey, and Richard in Louisville. His surviving daughters are Mrs. Margaret Owens, Mrs. Hettie Hoffman and Mrs. Bettie Terry, all of Louisville. His wife, who was Miss Matilda Campbell, has been dead several years. Her family resided in Fleming County.

Although Mr. Spalding had made Louisville his home since 1849 he never lost his love for Maysville. This city never had a more loyal friend.

A life well spent has ended. A noble Christian man has gone to his reward.

Turnpike Scandal.

LEXINGTON, KY., March 4.—The attempt made by the Fiscal Court of Fayette County some months ago to establish free turnpikes throughout the county, which was laid on the table for a time and which gave rise to a great scandal, some saying that the owners of the turnpikes had used money to influence the members of the court, will come up again soon and promises to cut quite a figure. There are about 200 miles of free turnpikes in the county, valued at $200,000, and it can be seen that there is room for a large-sized job in their purchase by the county.

A LIVELY RUNAWAY.

Sheriff Jefferson and Mr. Lawrence Clark Had a Narrow Escape Wednesday.

There was a lively runaway late yesterday afternoon on Plum street, and Sheriff Jefferson and Mr. Lawrence Clark had a very narrow escape from death or serious injury.

About 5 o'clock, a double team which they were driving became frightened at something near the corner of Fourth and Plum streets and started to run. They were turned north on Plum and dashed madly along that street.

On reaching Third, the frightened animals failed to turn either to the right or left, but plunged wildly across that street and against the residence occupied by Mrs. Fannie Ray and Mr. and Mrs. Henry Ray, wrecking the fence, smashing the glass of the front door and splintering the weatherboarding in several places.

Mr. Jefferson and Mr. Clark were both thrown out on Plum street The former was stunned by the fall and was unconscious for a short time, but soon recovered and is all right. Mr. Clark escaped with a few bruises.

One of the team was a young horse Mr. Jefferson was breaking to harness, and it escaped without serious injury. The other was one of Mr. John W. Alexander's most valuable horses, and it was injured so badly that it died in a few hours. Its hip was crushed and its spine badly injured.

UNRAVELING A MURDER MYSTERY.

Peter Peaney Arrested Charged With Killing His Wife.

TOLEDO, March 7.—The sheriff of Wood county yesterday arrested Peter Peaney at Tontogany, O., charging him with the murder of his (Peaney's) wife. Late Saturday night the woman was found dead at the rear of Eddmno's drugstore in Tontogany with a bullet wound in her head. Rubbish had been piled around the body and an attempt made to burn the remains.

Suspicion first rested on a prominent resident of the village, but later it was shifted to the husband, and his arrest is the result. Peaney denied that he ever had a revolver, but the sheriff found a gun at a neighbor's residence, which he claims was left there by a Mrs. Garrett of Toledo, who says Peaney gave it to her to hide. Mrs. Garrett's arrest is considered probable. The motive for the murder is not apparent.

Cure for Headache.

As a remedy for all forms of headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. We urge all who are afflicted to procure a bottle, and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Large bottles only fifty cents at J. Jas. Wood's drug store.

THE earnings of the L. and N. the fourth week of February were $389,545, an increase of $31,739 compared with the corresponding period in 1894, but a decrease of $89,847 compared with 1893.

THE Franklin Favorite comments on the chicken industry of Simpson County as follows: "A few years ago the average farmer of this section did not give poultry raising more than passing attention, and was apt to regard himself as unfortunate if he raised more than enough for home consumption; but a change has been wrought, and the poultry sales from many farms are no inconsiderable item of the owner's revenue. Within the past three weeks nearly three car loads of fowls have been gathered up in Simpson County and shipped to New York. Other neighboring counties are worked likewise. These buyers have materially enhanced the market value of all kinds of fowls."
